

Carpetbagging, an Arrest and a Supervisor-Employee Relationship Standout in St. Louis County District 3 Commissioner Race

Published by DFL Duluth Exposed
October 25, 2016

This year's District 3 St. Louis County commissioner race does not have an incumbent and is an excellent opportunity for a new person to join the St. Louis County Board.

Thanks to a concerned citizen, District 3 voters have a chance to be made aware of some very questionable characteristics of one of the candidates.

Carpetbagging

Merriam-Webster dictionary defines [carpetbagger](#) as:

1. *Outsider; especially : a nonresident or new resident who seeks private gain from an area often by meddling in its business or politics*
2. *A political candidate who runs for office in a place where he or she has lived only for a short time*

September 25, 2015 [Beth Olson donated \\$50.00 to candidate Janet Kennedy with check # 2057](#) from her address of 308 E 5th St., DFL Duluth, MN.55805 per campaign finance records, linked above. Clearly, Beth Olson did not live in St. Louis County District 3 in September 2015.

[May 5, 2016 Beth Olson conveniently filed for office seeking the county commission open seat from a residence address of 4833 W 4th ST, DFL Duluth, MN 55807](#). County records show this property is owned by Christopher & Stacia Frazer of Manistique, MI. Currently, at the time of this publication, a [DFL Duluth rental license](#) verification has not be completed to determine this is a legitimate licensed rental property.

Arrested

The concerned citizen provided information found doing a Google search for '[beth olson nichols duluth arrest](#)'. Further review of the Google search findings led to a July 15, 2004 Duluth News Tribune story titled SIX ARRESTED DURING RALLY. The Duluth News Tribune story included '[Angela Nichols, 33, and](#)

Elizabeth Olson, 34, were cited for disorderly conduct for illegally trying to get into the DECC, Duluth police Lt. Tim Hanson said.' [The entire story can be seen by clicking this hyperlink and going to the bottom of the webpage](#) This news story also includes some of DFL Duluth's most well know radical 'progressives' arrests.

Because of the commonality of the name Beth Olson, further searching was performed. Confirmation this is the same Beth Olson that was arrested was obtained in another Duluth News Tribune story that states '[she and her then-partner, Angela Nichols, were featured in a News Tribune article about gay couples who were raising children. Olson married Nichols in Canada, but she said the two are no longer together.](#)'

Ironically, these news stories are from the very same Duluth News Tribune that has endorsed Beth Olson for the St. Louis County District 3 Commissioner position.

Supervisor-Employee Relationship

Happy anniversary Lori Nae! 8 years later with two years married. You are my favorite!

Lori Young I wish every happy anniversary message was a delicious cookie. I'm hungry. Hahaha. Thanks everyone, even though you can almost see my panties in this pic, BETH!!!

Beth Olson's campaign website states that she is the Executive Director of a DFL Duluth non-profit named First Witness Child Advocacy Center.

[Wikipedia defines an executive director](#) as a chief executive officer (CEO) or managing director of an organization, company, or corporation. The title is widely used in North American non-profit organizations, though many United States nonprofits have adopted the title president or CEO.

The [First Witness About webpage](#) confirms Beth Olson is the Executive Director. Also found on this webpage is an employee, listed as Training & Communications Coordinator. Executive Director Beth Olson is the Training & Communications Coordinator's supervisor.

The Training & Communications Coordinator clearly appears to be same person in the picture above and the same name on the First Witness About webpage and picture.

The website woman.thenest.com states the following in the publication [Laws About Relationships Between Employees & Supervisors](#):

- 1. Workplace relationships add an element of complication to the environment even when relationships are between equals. When a supervisor has a relationship with an employee under his management, the dynamics can be toxic for the workplace.*
- 2. One thing that companies can do in order to protect the dynamics of the workplace and to foster a positive work environment is to adopt a company policy that prohibits dating between supervisors and employees. Also, requiring all managers to complete sexual harassment training as often as deemed necessary by the company's officers is a great tool. The relationship between a supervisor and an employee may not appear to be a problem at the time of the romance, or right after, but an employee can come back and claim sexual harassment even after the relationship has ended.*

Conclusion

St. Louis County District 3 residents can and should demand better than a candidate moving into the district to get a \$58,000/year part-time job.

District 3 citizens should expect character that does not include previous arrests and proven associating with known leftist 'progressive' radicals.

St. Louis County citizens should demand politicians who make intelligent decisions which do not put any organization or entity at risk of a preventable lawsuit. Beth Olson's choices and current employment practices demonstrate poor character and decision making.

All the above demonstrate that Beth Olson is not fit to serve.
